Professional profile

I work as a Full Stack developer familiar with several technologies, including HTML5, CSS3, MySQL, PostgreSQL, SQL, MongoDB, JavaScript, Java, SASS, Git, Bootstrap, React, Node.js, Express.js as well as using Figma. In addition to the technical aspect, I stand out for my empathetic, decisive, and proactive qualities. I also have strong communication skills oriented to provide optimal customer service, working under Agile methodology within the team. In addition, I continue to train constantly during my professional career to keep myself updated. I have been recognized for my dedicated work focused on total quality, optimizing overall processes, and I am committed to each assigned project.

Technical skills

Web Development: HTML5, CSS3, JavaScript, Responsive Web Design

* **Additional Skills:** Installation and maintenance of software and hardware for computer systems. Education

Education

2022-2023	**Full-Stack Web Development** DEV.F	
2010-2012	**Technology in Analysis and Development of Information Systems (ADSI)** National Apprenticeship Service (SENA)	
2009-2010	**Systems Technician** COMPUBUGA	

Experience as a developer

Trainee
November 2022 - July 2023 PROtalento
Trainee Full Stack Web Developer.
- Experience using languages such as HTML5, CSS3 and JavaScript and frameworks, with special emphasis on Node.js.
- Active participation in the creation of web projects to meet precise specifications.
- Utilization of technological resources to create highly functional websites.
- Effective collaboration with the team to achieve project goals.
- Ability to adapt, address and resolve technical challenges during development.
- Implementation of best practices to optimize website performance.

Full Stack Web Development Projects

February 2024 Quiz Game:
- The Quiz app uses React, ViteJS and TailwindCss. It offers randomized quizzes of various categories like Science, Sports, Philosophy, etc. with 5 questions each. Its modern and easy to use interface ensures an exciting and accessible experience for new and advanced users.
- **Repository:** Quiz Game

January 2024 Memory Game:
- The Memory app uses React, TailwindCss and Vite, and challenges players to find pairs of identical cards by remembering their positions. It is an entertaining way to exercise memory and mental agility, encouraging players to find all the hidden pairs before time runs out.
- **Repository:** [Memory game](#)

October 2023 News homepage:
- It is a news homepage using React and the Tailwind framework for web design and layout. The combination of these technologies allowed us to create a modern and attractive interface to present informative content in an effective way.
- **Repository:** [News-homepage](#)

September 2023 E-commerce:
- The app is an online store with React and Bootstrap, integrating an external API for data and a robust backend for business logic. I used Redux for a seamless and secure user experience, allowing customers to select, review and pay for products efficiently.
- **Repository:** [Frontend](#) and [Backend](#)

July 2023 Final project MallasJf:
- It's a locksmith website with frontend in React Bootstrap and backend in Node.js Express, MongoDB. I implemented an attractive interface and solid services using tools like Mongoose, Nodemailer and Axios.
- **Repositories:** [Frontend](#) and [Backend](#)

Work experience

August 2020 - January 2023 Atento Colombia
RAC Advisor via Chat.
- Offer an integral service of technical and commercial support to customers.
- Attend customers with quality, kindness and respect at all times.
- Anticipate customer needs and concerns and offer effective solutions.
- Manage and resolve customer requests and complaints in a professional and efficient manner.
- Seek full customer satisfaction and receive positive customer feedback as a measure of quality.
- Build and maintain strong customer relationships through exceptional service.
- Continually improve technical and business support processes and procedures.
- Collaborate with other departments to resolve problems efficiently.
